# TRINITI

Three rings of light are almost entangled but still separated from each other. This hanging lamp lives up to its name. Triniti represents the holy trinity. Hang the rings for the installation at the desired height (minimum 60 and maximum 135 centimetres from the ceiling). Thanks to the fine connecting cables between the mounting plate and the light sources themselves, the light beams seem to float above your table. After connecting to a dimmer, you determine the brightness of the integrated LEDs yourself.

# MARGARY

Third time's a charm. Because with its three pendants, Margary hanging lamp does exactly what it needs to do: create atmosphere and amaze everyone with its sophisticated design. With an eye for surprising technological capabilities as well. Take a look at the separate pendants in detail. The aluminium rod opens into an integrated LED bulb. That bulb spreads its warm white light neatly downwards. Slightly higher, an aluminium cylinder seems to float around the rod. This optical illusion is enhanced by the second integrated LED bulb between the two cylinders. Inside, the smallest cylinder seems to glow. That glow enhances the unique atmosphere Margary brings into your home. Each pendant is individually adjustable in height. You hang them 50 to 169 centimetres high. All at the same level or in a playful dialogue. You choose.

# TUBULE

Three modern pendants that look incredibly fun and luxurious. Tubule is a hanging lamp for those who love refined materials and sleek designs. Because the cylindrical lampshades with integrated light bulbs are so subtly designed that they are hardly more than a thickening of the adjustable cables. Tubule does everything to integrate perfectly into the room. Warm white light comes from the three light points along both sides.

A black rectangular overlay in the bottom right corner containing product specifications and a dimming control interface. It includes the text '2700K WARM WHITE' above a horizontal color gradient bar, and 'DIMMABLE' with a curved slider icon and '+' and '-' symbols.

# SUZY

Wake up little Suzy. Wouldn't that be something? To be able to simply turn this table light on by singing it songs? Suzy is only 16 centimeters tall and has a diameter of 12 centimeters, but she holds her ground. Produced from black, high-end metal and with an inside in matt gold, it radiates nothing but atmosphere. This gets reflected on the surface you place it on. This applies to both this round version, as well as the square model. Combine Suzy with the right LED-lightsource and switch this table light on and off with the switch incorporated in the cord.

The Knulle is barely 28 centimetres in size and therefore fits in any corner of your room. On your side table or coffee table, but also on your dining table. It even works outstandingly as a night lamp in a modern bedroom.

# BECKY

As an unfinished soap bubble, table lamp Becky crawls out of her matt base. The smoked glass refers to the shape of a traditional lamp, while simultaneously clearly flirting with other shapes. Becky is a mixture between a sphere, a cut-off cone and a trapezoid. The light is spread diffusely and is naturally dimmed by the smoked glass. The result is a glow of warm white light, which adds to your interior both on a table or besides a decorative element.

# MEDINE

With the Medine hanging lamp, you get a modern eye-catcher in your house. The light point is surrounded by a glass dome in smoked glass. That makes Medine extra classy. Thanks to the reflections of the glass, the lamp itself gets all the attention. That is why you opt for an optimal effect, preferably with a filament bulb. For the installation, you simply adjust the pendant to the desired height (from 50 to 156 centimetres) and simply connect it to a dimmer. Installation is done in 1, 2, 3 by screwing the mounting plate to the ceiling.

# JANY

Even with its compact dimensions, the Jany table lamp holds its own anywhere. Its shapes are reminiscent of a pouffe where you can settle down - cosiness: check! - while the combination of glass and metal create a retro look. The metal base is a completely smooth cylinder.
